## **SPARE PARTS CATALOGUE**

**- April 2016 -**

## HOW TO READ THE SPARE PARTS CATALOGUE

In the spare part catalogue, after the exploded diagrams, there are the components lists of the boilers; this is the meaning of the different columns:

**Pos.** Identification number of the component in the exploded diagram of the boiler.

**Description** Short description of the component.

**Code** BAXI S.p.A. code of the component.

**Tab. XX** XX is the exploded diagram number of the boiler taken into

**From serial number** Date (year and week) identifying the beginning of production of a component (taken from the serial number of the boiler).

e.g. **1201: year 2012** (1 identifies the decade 2010-2019; 2 identifies the year) – **1th week**.

If the box is empty, the component is in use from the beginning of production of the boiler.

**To serial number** Date (year and week) identifying the end of production of a component (taken from the serial number of the boiler).

e.g. **1225: year 2012** (1 identifies the decade 2010-2019; 2 identifies the year) – **25<sup>th</sup> week**.

If the box is empty, the component is still in use.

**Interchangeable** It identifies the interchangeability between the new component and the old one.

YES: components are interchangeable.

NO: components are not interchangeable
